## About Antipodes

Antipodes is a global asset manager offering a pragmatic value approach across long only and long-short strategies. It aspires to grow client wealth over the long-term by generating absolute returns in excess of the benchmark at below market levels of risk. Antipodes seeks to take advantage of the market's tendency for irrational extrapolation, identify investments that offer a high margin of safety and build high conviction portfolios with a capital preservation focus.

## Antipodes Global Fund

The Fund typically invests in a select number of attractively valued companies listed on global share markets (usually a minimum of 30 long holdings). The Fund may use derivatives predominantly to establish short positions in securities or market indices and thus reduce the Fund's net exposure to markets, and to hedge currencies.
