# Antipodes Investment Funds

## Product Disclosure Statement

Investment Management by Antipodes Partners Limited

Dated 23 July 2018

Issued by Implemented Investment Solutions Limited

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose). Implemented Investment Solutions Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013 ('FMC Act'). You can also seek advice from a financial adviser to help you make an investment decision.

# 1. Key information summary

## What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Implemented Investment Solutions Limited will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of Implemented Investment Solutions Limited and of its investment manager and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

## What will your money be invested in?

There are two investment options offered under this Product Disclosure Statement ('PDS'). These investment options are summarised below. More information about the investment target and strategy for each investment option is provided in section 3 of the PDS, "Description of your investment options" on page 6.

Fund	Description	Risk Indicator*	Annual Fund Charges (Estimated, % of the Fund's net asset value)	Buy/Sell Spread (of each investment /redemption)							
Antipodes Global Fund (PIE)	<p>The Fund provides exposure to a diversified portfolio of international shares which is actively managed. In addition to holding "long-only" positions in international shares, the Fund may also short sell securities, hold cash, lever its assets and use active currency management to generate returns. Given the Fund's broad mandate and wide range of tools available, its investment performance will depend, to a larger degree than traditional equity investment funds, on Antipodes' skill in selecting, combining and implementing investment decisions. <b>These features mean that the Fund will not be appropriate for all investors</b></p> <p>The investment objective of the Fund is to achieve absolute returns in excess of the MSCI All Country World Net Index in NZ dollars over the investment cycle (typically 3-5 years).</p>	<p>Lower risk/ potentially lower returns</p> <p>Higher risk/ potentially higher returns</p> <table border="1"> <tr> <td>1</td> <td>2</td> <td>3</td> <td>4</td> <td>5</td> <td>6</td> <td>7</td> </tr> </table>	1	2	3	4	5	6	7	<p>1.25% (incl. GST)</p> <p>Performance based fees may apply, see Section 5 for details</p>	<p>0.075%/0.075%</p>
1	2	3	4	5	6	7					

Antipodes Global Fund - Long (PIE)	The Fund provides exposure to a diversified portfolio of international shares which is actively managed. The Fund can only take “long” positions in the securities it holds and cannot short sell or use leverage to generate returns.  The investment objective of the Fund is to achieve absolute returns in excess of the MSCI All Country World Net Index in NZ dollars over the investment cycle (typically 3-5 years).	Lower risk/ potentially lower returns		Higher risk/ potentially higher returns		1.25% (incl. GST)  Performance based fees may apply, see Section 5 for details)	0.075%/0.075%			
		1	2	3	4			5	6	7

\*Note: Market index returns have been used to determine the risk indicator for the 5-year period to 30 June 2018 as the Funds have not been operating for five years. The risk indicators may therefore provide less reliable indicators of the Funds' future volatility.

See section 4 of the PDS, “What are the risks of investing” on page 8 for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

### Who manages the Antipodes Investment Funds?

The manager of the Antipodes Investment Funds is Implemented Investment Solutions Limited ('we', 'us', 'our').

See section 7 of the PDS, “Who is involved?” on page 12 for more information.

### How can you get your money out?

Investments in the Funds are redeemable on request. We may suspend or defer redemptions if we determine this is in the best interests of investors generally. We may also suspend redemptions from a Fund in certain circumstances set out in the Trust Deed including if we, in good faith, form the opinion that it is not practicable or would be materially prejudicial to the interests of the Fund's investors to realise assets or borrow to permit Unit redemptions.

See section 2 of the PDS, “How does this investment work?” on page 5 for more information.

Your investment in a Fund can be sold but there is no established market for trading these financial products. This means that you may not be able to find a buyer for your investment.

### How will your investment be taxed?

The Funds offered under this PDS are portfolio investment entities ('PIEs').

The amount of tax you pay in respect of a PIE is based on your prescribed investor rate ('PIR'). To determine your PIR, go to [www.ird.govt.nz/toii/pir/](http://www.ird.govt.nz/toii/pir/).

See section 6 of the PDS, “What taxes will you pay?” on page 12 for more information.

### Where can you find more key information?

We are required to publish quarterly updates for each Fund. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at [www.iisolutions.co.nz](http://www.iisolutions.co.nz). We will also give you copies of those documents on request.

## 2. How does this investment work?

This document is an offer to purchase units ('Units') in the Funds. The Funds are part of the Antipodes Investment Funds managed investment scheme, established under a trust deed ('Trust Deed').

The money you invest buys Units in the Fund or Funds you choose. Antipodes Partners Limited ('Antipodes') is the investment manager of the Funds.

The Funds currently invest in underlying offshore funds managed by Antipodes ('Underlying Funds'). Units do not constitute legal ownership of the Fund's assets but give you rights to the returns of the assets.

The price of each Unit you receive in a Fund depends on the value of the Fund at the time you invest and any buy spread that applies. We calculate the Unit price for each Fund by subtracting the total value of the Fund's liabilities from the market value of its assets and dividing that number by the number of Units the Fund has issued. The Unit price is calculated daily.

A change in the value of the Fund's assets affects the price of your Units. The Unit price for each Fund will change as the market value of the Fund's assets changes.

No assets of a Fund will be available to be applied to meet the liabilities of any other Fund in this scheme.

Public Trust is the supervisor ('Supervisor') of the Funds and, in that role, monitors and supervises our management of the Funds. The assets of the Funds are held in independent custody by Public Trust.

The significant benefits of investing in the Funds are:

- **Diversification and scale.** By pooling the money of all investors in the Funds, we can give investors exposure to a more widely diversified portfolio of underlying assets than they may be able to access themselves. This increased diversification can reduce risk. In addition, the scale of the Funds allows us to lower costs by negotiating better prices with service providers.
- **Professional investment management.** Antipodes is the investment manager for the Funds. Antipodes is a global asset manager offering a pragmatic value approach across long only and long-short strategies. It aspires to grow client wealth over the long-term by generating absolute returns in excess of a market index at below market levels of risk.

The return on your investment comes from any increase or decrease in the Unit price.

The Funds in this PDS do not currently distribute income or capital gains, but may elect to do so in the future. Any income or capital gains will currently be included in the unit price calculated for these funds.

### **Making investments**

You can make lump sum or regular investments into the Funds. The application process is described in section 10 of the PDS, "How to apply" on page 14.

The minimum initial investment for each Fund is \$25,000. Thereafter, the minimum additional investment is \$5,000 per Fund. These minimum amounts may be varied or waived at our discretion.

We may, in our absolute discretion, refuse any application without giving any reason. If we refuse your application, your application payment will be returned to you in full, without interest.

### **Withdrawing your investments**

You may request redemption of some or all of your investment at any time. Payment will normally be made within 15 business days of our receiving a redemption request from you. However, we may suspend withdrawals from a Fund if we decide to close the Fund, or in other circumstances where we believe that allowing members to take their money out would not be workable, or would prejudice

members generally. A suspension can last up to six months. If withdrawals are suspended and you submit a withdrawal request, we will not process it until the suspension is lifted.

When you redeem all or part of your investment from a Fund, we will redeem your investment at the unit price for the Fund, adjusted for the applicable sell spread for the Fund.

We reserve the right to refuse a redemption request for less than 5,000 units or a redemption request that would result in you holding less than 25,000 units (except where all of your units are to be redeemed).

### How to switch between Funds

You cannot switch your investment between Funds.

## 3. Description of your investment options

Fund	Summary of investment objectives and strategy	Target investment mix	Risk category	Minimum suggested investment timeframe
Antipodes Global Fund (PIE)	<p>Objective: to achieve absolute returns in excess of the MSCI All Country World Net Index in NZ dollars over the investment cycle (typically 3-5 years).</p> <p>The Fund invests in the Antipodes Global Fund - UCITS (Underlying Fund) and cash or cash equivalent securities. The Underlying Fund's investment exposure is predominantly to a broad range of international shares listed on stock exchanges in developed and emerging markets. Derivatives, including equity shorts and currency positions may be used where the Investment Manager sees attractive opportunities and also to offset specific unwanted portfolio risks and provide some protection from unexpectedly large movements in the value of the portfolio. Derivatives may also be used to amplify positions where the Investment Manager feels strongly about the return potential of an idea. In using derivatives, the Underlying Fund's total gross exposure may be leveraged to a maximum of 200% of the Net Asset Value. The Underlying Fund's net exposure will be within a range of 50% to 100% of its Net Asset Value.</p>	<p>International equities</p> <p>100%</p>	5	5 years

	Given the Fund's broad mandate and wide range of tools available, its investment performance will depend, to a larger degree than traditional equity investment funds, on Antipodes' skill in selecting, combining and implementing investment decisions. <b>These features mean that the Fund will not be appropriate for all investors.</b>			
Antipodes Global Fund - Long (PIE)	Objective: to achieve absolute returns in excess of the MSCI All Country World Net Index in NZ dollars over the investment cycle (typically 3-5 years).  The Fund invests in the Antipodes Global Fund - Long - UCITS (Underlying Fund) and cash or cash equivalent securities. The Underlying Fund's investment exposure is predominantly to a broad range of international shares listed on stock exchanges in developed and emerging markets. The Underlying Fund may use exchange traded derivatives for risk management purposes and to achieve equity exposure.	International equities  100%	5	5 years

We can make changes to the Statement of Investment Policy and Objectives ('SIPO') of the Funds in accordance with the Trust Deed and the FMC Act. Before making changes to the SIPO, we will consider if the changes are in your best interests and consult with the Supervisor. We will give notice of changes to investors of a Fund prior to effecting any material change and any material changes to the SIPO will be advised in the Fund's annual report. The most current SIPO for the Funds can be found on the scheme register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).

Further information about the assets in each Fund can be found in the fund updates at [www.iisolutions.co.nz](http://www.iisolutions.co.nz).

## 4. What are the risks of investing?

### Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

Lower risk/ potentially lower returns	Higher risk/ potentially higher returns					
1	2	3	4	5	6	7

See page 2 for the risk indicator for the Funds offered under this PDS.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there may be other risks (described under the heading "Other specific risks") that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 30 June 2018. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for these Funds (once available).

### General investment risks

Some of the things that may cause the Fund's value to move up and down, which affect the risk indicator, are:

#### Market and security specific risk

A key risk for the Funds is that prices of underlying shares fluctuate. Price fluctuations are generally attributable to a combination of:

- Market risk, and
- Security specific risk.

**Market risk:** Security prices may decline over short or extended periods due to general market conditions (e.g. economic, technological or political). The Underlying Funds' guidelines permit short-selling and other techniques which the Investment Manager may use to reduce the impact of market declines.

**Security specific risk:** Investments in a company may decline in value because of changes in the financial condition of the company. The Investment Manager's analysis of each company it invests in, as well as maintaining a diversified portfolio of companies, aims to mitigate this risk.

**Portfolio Management risk:** Each Fund's performance depends on the Investment Manager's expertise and investment decisions. A Fund's investment objective may not be achieved if the Investment Manager's opinion about the intrinsic worth of a company or security is incorrect. This risk is reduced by active management of a Fund's assets.

**Derivative risk:** Derivative Investments may experience losses due to changes in market conditions, such as fluctuation in interest rates, equity prices or exchange rates. In addition, changes in the value of a derivative may not correlate perfectly with the underlying asset value. Derivatives transactions can be highly volatile and can create investment leverage, which could cause a Fund to lose more

than the amount of assets initially contributed to the transaction. As OTC ('Over the Counter') derivatives are customised instruments, the Funds may be unable to liquidate these derivative contracts at a fair market price within a reasonable timeframe. The risks associated with the use of derivatives in the Underlying Fund for the Antipodes Global Fund (PIE) are explained in more detail below, under the heading "Other specific risks".

**Currency risk:** Investing in assets denominated in a currency other than a Fund's base or reporting currency may cause losses resulting from exchange rate fluctuations. The Investment Manager will seek to manage each Fund's currency exposure using hedging instruments (for example, foreign exchange forwards, swaps, "non-deliverable" forwards, and currency options) and cash foreign exchange trades.

**Foreign investment risk:** Foreign company investments may decline in value because of sovereign, political, economic or market instability, the absence of accurate information about the company or risks of unfavourable government actions such as expropriation and nationalisation. Some countries may have different legal systems, taxation regimes, auditing and accounting standards with less governmental regulation and transparency.

**Emerging market risk:** Investments in emerging markets include risks additional to those normally associated with an investment in securities in more developed markets. These risks may include restrictions on investment and repatriation of investment capital, the ability to exchange currencies for New Zealand dollars, currency and security price volatility, and markets that may be less liquid and less regulated. Political and social unrest together with government involvement in the economy can also increase risk.

**Liquidity risk:** The Funds may not be able to purchase or sell a security in a timely manner or at desired prices or achieve their desired weighting in a security. The Investment Manager has risk management guidelines designed to minimise liquidity risk through:

- Ensuring that there is no significant exposure to illiquid or thinly traded financial instruments; and
- Applying limits to ensure there is no undue concentration of liquidity risk to a particular counterparty or market.

### **Other specific risks**

**Performance fee risk:** The risk of portfolio managers and analysts taking higher risk as a result of their remuneration being tied to portfolio performance. The Investment Manager's staff are required to comply with company policies and compliance and risk management frameworks. Furthermore, it is the Investment Manager's policy that if a staff's remuneration is above a certain threshold, they are required to invest a component of their remuneration in any fund(s) managed by the Investment Manager.

The Antipodes Global Fund (PIE) also has the following specific risks:

**Short Selling risk:** Short selling means that a person sells a derivative contract or currency exposure it does not own to try to profit from a decrease in the value of that investment. This may involve simply acquiring a short exposure via a market transaction. The short selling of a derivative or currency exposure may, but need not necessarily, involve a greater risk of investment than buying that same derivative or currency exposure. Short selling is designed to benefit portfolio value when markets are falling but may detract from portfolio value if markets rise. The risks associated with short selling are managed in the same way as the risks associated with holding a long security, that is, thorough research, daily reporting and ongoing monitoring of positions held.

**Leverage risk:** The Fund employs leverage through the use of short selling and derivatives. A Fund that utilises leverage has greater exposure to the value of market securities than a Fund which has not used leverage. This magnifies the potential gains and losses from investments and increases in volatility of the Fund's return compared to a Fund that has not used leverage.

As a result of using derivatives, the Underlying Fund's total gross exposure may be leveraged to a maximum of 200% of the Net Asset Value. The Underlying Fund's net exposure will be within a range of 50% to 100% of its Net Asset Value.

Further general information on risks is contained in the document "Other Material information" which can be found on the offer register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).

## 5. What are the fees?

You will be charged fees for investing in the Funds. Fees are deducted from your investment and will reduce your returns. If we invest in other funds, those funds may also charge fees. The fees you pay will be charged in two ways:

- regular charges - for example, annual fund charges. Small differences in these fees can have a big impact on your investment over the long term.
- one-off fees - for example the sell spread on redemptions.

### Annual Fund Charges (% of net asset value)

Fund	Fixed Annual Fund Charges (excl. GST)	GST (Estimated)	Performance-based fees*	Total Annual Fund Charges (Including GST) (Estimated)
Antipodes Global Fund (PIE)	1.20%	0.05%	0.00%	1.25%
Antipodes Global Fund – Long (PIE)	1.20%	0.05%	0.00%	1.25%

\*To estimate the performance-based fees we have assumed the Funds achieve the market index return, in which case no performance-based fees will be payable.

The charges outlined above include all normal day-to-day fund costs and expenses including the following:

- the management fee paid to us and the investment management fee paid to Antipodes Partners Limited;
- Fees and expenses charged within the Underlying Funds;
- the Supervisor's fee;
- costs incurred by us, the Supervisor and the investment manager in carrying out each of our respective duties (including the fees charged by auditors, solicitors, valuers and other advisers);
- bank account charges applicable to the Funds; and
- costs for administration services, including Unit registry, asset registry, Unit pricing and investment accounting costs and costs associated with the provision of financial information related to each Fund.

The GST treatment of each of these components varies. For example, GST is currently charged at 15% on 10% of the investment management fee in accordance with the non-binding IRD agreement with the Financial Services Council of New Zealand Incorporated on behalf of the funds management industry. In contrast, GST is charged at 15% on the audit fee. These percentages vary, and may change in the future, which is why GST has been estimated.

The Total Annual Fund Charges do not include any extraordinary expenses such as costs of any litigation or unitholder meetings.

The annual fund charges are calculated and accrued daily and reflected in the unit price. The investment management charges and other fund charges are paid monthly. The performance-based fee is calculated and accrued daily and reflected in the unit price and if due is payable at the end of each 6 month period ending 30 June and 31 December.

### Performance-based fees

Depending on how well a Fund performs, the Investment Manager may be entitled to a performance-based fee ('Performance Fee'). The performance fee arrangements are summarised below:

Hurdle rate of return	Benchmark index: MSCI All Country World Net Index in NZ dollars
Amount of performance fee	15% of the Fund's performance above the Benchmark Index
Maximum limit	No limit
High water Mark	Yes (see below)
Frequency of calculation and payment	Calculated daily and paid semi-annually on 30 June and 31 December each year.

The performance fee above has a 'high water mark'. This means it is calculated on a cumulative basis relative to the Benchmark Index so that any performance under the Benchmark Index in a particular period must first be recovered in following periods before performance fees are paid.

### Individual action fees (% of amount contributed or withdrawn)

Fund	Buy spread	Sell spread
Antipodes Global Fund (PIE)	0.075%	0.075%
Antipodes Global Fund – Long (PIE)	0.075%	0.075%

Buy/sell spreads - When you enter or leave a Fund, any buy or sell spreads applicable at that time will be a cost to you. The buy spread is added to the Unit price on entry to the Fund, and the sell spread is deducted from the Unit price on exit from the Fund. The buy/sell spreads belong to the Fund and are not fees paid to us or the investment manager. The purpose of buy/sell spreads is to make sure that any transaction costs incurred as a result of an investor entering or leaving the Fund are borne by that investor, and not by other investors in the Fund. There is no GST charged on buy/sell spreads.

The buy/sell spreads at the date of this PDS are set out in the table above.

There are no other one-off fees currently being charged to Investors in the Fund offered under this PDS.

### **Example of how fees apply to an investor**

Anthony invests \$25,000 in the Antipodes Global Fund (PIE). He is charged a buy spread of 0.075%. This brings the starting value of his investment to \$24,981.25.

He is also charged management and administration fees, which work out to about \$312.27 (1.25% of \$24,981.25). These fees might be more or less if his account balance has increased or decreased over the year.

Anthony may also be charged a performance-based fee if his fund earned more than its target.

### Estimated total fees for the first year

Individual action fees:	\$18.75
Fund charges:	\$312.27

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

### The fees can be changed

We can change fees from time to time. We can also add new fees. We may waive or decrease a management fee without notice. We may increase the management fee, or start charging additional fees, by giving you at least three months' notice. The rules about fee changes are in the Trust Deed, which can be found on the scheme register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).

We must publish a fund update for the Fund showing the fees actually charged during the most recent year. Fund updates, including past updates, are available on the offer register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).

## 6. What taxes will you pay?

Each Fund is a portfolio investment entity. The amount of tax you pay is based on your prescribed investor rate ('PIR'). To determine your PIR, go to <http://www.ird.govt.nz/toii/pir/>. If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department. It is your responsibility to tell us your PIR when you invest or if your PIR changes. If you do not tell us, a default rate may be applied. If the advised PIR is lower than the correct PIR, you will need to complete a personal tax return and pay any tax shortfall, interest, and penalties. If the default rate or the advised PIR is higher than the correct PIR, you will not get a refund of any overpaid tax.

At the date of this PDS, the Funds calculate the taxable income accruing from the Underlying Fund, as a Foreign Investment Fund, using the Fair Dividend Rate ('FDR') method. More information on the FDR method is available from the IRD ([www.ird.govt.nz](http://www.ird.govt.nz) IR461). The method of calculation of taxable income may change without notice to investors.

## 7. Who is involved?

### About Implemented Investment Solutions Limited

Implemented Investment Solutions Limited is the manager of the Funds. Our contact details are below.

Level 3, Woodward House  
1 Woodward Street  
PO Box 25003  
WELLINGTON 6146

Telephone: (04) 499 9654  
Email: [contact@iisolutions.co.nz](mailto:contact@iisolutions.co.nz)

### Who else is involved?

Title	Name	Role
Supervisor	Public Trust	Supervisor of the Funds under the FMC Act, responsible for supervising Implemented Investment Solutions Limited as manager of the Funds.
Custodian	Public Trust	Appointed by Public Trust, as Supervisor, to hold the assets of the Funds on behalf of investors.

Investment Manager	Antipodes Partners Limited	Defines each Fund's investment mandate and reviews the mandate and is responsible for selecting and monitoring the Underlying Fund. Is responsible for sales, marketing and client relationship management to support the Funds.  Investment manager for the Underlying Funds. Makes decisions about what the Underlying Fund invests in.
Administrator	MMC Limited	Appointed by Implemented Investment Solutions Limited to manage core administration functions including: unit pricing, fund accounting and fund registry.

## 8. How to complain

Any complaints or problems with the investment should be directed to us for resolution through our internal dispute resolution process:

Implemented Investment Solutions Limited  
Level 3, Woodward House  
1 Woodward Street  
PO Box 25003  
WELLINGTON 6146

Telephone: (04) 499 9654  
Email: [contact@iisolutions.co.nz](mailto:contact@iisolutions.co.nz)

If you are not satisfied with the outcome of your complaint to us, you may refer the matter to the Supervisor for resolution through its internal dispute resolution process:

Public Trust  
New Zealand Rugby House  
100 Molesworth Street  
PO Box 5067  
WELLINGTON 6140

Telephone: 0800 371 471  
Email: [enquiry@trustee.co.nz](mailto:enquiry@trustee.co.nz)

If your complaint is not able to be resolved through our internal dispute resolution process or that of the Supervisor, you may refer your complaint to the dispute resolution scheme operated by the Insurance and Financial Services Ombudsman, an approved dispute resolution scheme under the Financial Service Providers (Registration and Dispute Resolution) Act 2008. We are a registered financial service provider and member of this scheme. The Insurance and Financial Services Ombudsman's service is provided at no cost to you. The contact details for the scheme are:

Insurance and Financial Services Ombudsman  
Level 8, Shamrock House  
79-81 Molesworth Street  
PO Box 10-845  
WELLINGTON 6143

Telephone: 0800 888 202  
Email: [info@ifso.nz](mailto:info@ifso.nz)

## 9. Where you can find more information

Further information relating to the Antipodes Investment Funds is available on the offer register and the scheme register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose) and a copy of information on the offer register or scheme register is available on request to the Registrar of Financial Service Providers.

### Other information we will provide

You can also obtain the following information free of charge:

Information	How to obtain
Fund information relevant to you	You can inspect documents we hold that are relevant to you, and other documents that are legally required to be provided to you, at our offices during normal business hours, or request an extract of those documents, by written request to us.
Fund updates	Once available, the fund updates for the Fund will be publicly available from our website and can be requested from us.

If you invest directly into a Fund, we will send you confirmation information relating to your transactions when Units are issued to you, as well as when you withdraw or transfer your Units and make available to you an annual report in respect of the Scheme.

You will also be sent an annual tax statement, which will include the amount of PIE income allocated to you and the amount of tax paid at your chosen PIR. You will also be asked to confirm your IRD number and PIR.

You can find general information about the Fund, our management team, and us on our website [www.iisolutions.co.nz](http://www.iisolutions.co.nz).

## 10. How to apply

If you are making an investment directly with us, then you will be required to complete the application form, which can be obtained from the Manager, and send it with your cheque or payment details to:

The Administrator  
MMC Limited  
Level 25, QBE Centre  
125 Queen Street  
PO Box 106 039  
Auckland 1143

Payments by cheque are to be made payable to: "Public Trust ATF Antipodes Investment Scheme"

You can also apply to invest in the Funds through approved investment administration and custodial service platforms (also known as 'wrap platforms' or 'PIE investor proxies'). Many adviser groups and distributors prefer using wrap platforms in providing services to their clients. When reading this PDS you should remember that if your investments are purchased through a wrap platform they will be held by a custodian on your behalf. In that case you should refer to the wrap platform's service terms and relevant material for how you may invest in the Fund. The terms of these wrap platform services are separate and independent to the offer of the Fund under this PDS. Please take time to read this PDS and other information contained on the scheme register ([www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose)) before making your investment decision.
